BUILDING FINANCIAL STRENGTH FOR CAPITAL ACQUISITION

This class is designed to strengthen business owners/entrepreneurs seeking to obtain funding in the next one to two years and beyond. The goal of the course is to provide insight into the current process used by lenders to provide funding to small businesses. The course will explore both personal and business credit scoring models and how these credit scores are used in the funding process. In addition, the course will explore how purchasing decisions a business owner makes on the personal side can impact their ability to obtain a loan on the business side. This class will focus on the implications of business lending and how personal credit impacts a business's ability to borrow.
